4. 1 additional point will be allocated for 3<sup>rd</sup> place at the BKA Nationals.
5. 2 additional points will be allocated for 1<sup>st</sup> or 2<sup>nd</sup> place at the BKA Nationals.

## Frequently Asked Questions

### 1. Why do we need this points system?

- We want to select people who show the best chance of winning medals and who we think would significantly benefit from being on the National squad. These people are most likely to be those that show the most commitment to their training. Rather than judge this subjectively we want to use an objective and transparent system based on training records.
- As the Association has grown we have slowly moved away from the old manner of selection which was at the sole discretion of the squad manager, with no formal selection criteria other than performance at the Nationals. We now recognise that selection criteria should be more transparent. Squad managers in the past have used criteria similar to this, we are simply formalising the process.
- The points system ensures that from the management side, a candidate’s commitment through attending events is formally tracked.
- We also realise that funding a squad is a large financial commitment for the BKA and the funds belong to all the members and not just those who enjoy taikai. By using the points system as one of the criteria for selection we hope to ensure that we reward not only excellence but commitment to representing the BKA at events.

### 2. Why is a one day or half day intensive training allocated the same amount of points as a 3 day seminar?

Squad training is the cheapest one day event that candidates can attend. We wish to

- a. Encourage attendance at intensive training as the core of squad selection
- b. Weight the points system towards this cheaper event to go some way to even out the financial burden
